

HEY! HAVE YOU HEARD ABOUT SHAC?

1 What is SHAC?

Wow, Texas has a great initiative in place called the School Health Advisory Council (SHAC)! This committee is appointed by the board of trustees of each school district to ensure that local community values are reflected in the district's health education instruction. It's so exciting to see such a proactive approach to promoting health education in schools. Wouldn't you want a part in that?!
