What Is A SHAC?

A SHAC is a school district created advisory group, consisting of members from different areas of the community and school district. The job of the SHAC is to make sure that the school district’s school health programs reflect local community values.
Roles & Responsibilities

Roles:

• Take a WSCC approach to health & learning.
• Talk over health issues, select programs, and provide training time to members.
• Make school health recommendations to the school board and help to offset costs.
• Promote school health coordination within the district & community.

Responsibilities:

• Demonstrate an interest in youth.
• Have an awareness of our community.
• Commit to quality school health programs.
• Commit to at least four meetings per year.
• Make decisions that serve the entire community.

Child Abuse Awareness and Prevention Program

Evidence based

- Age appropriate
- Kinder – High School
- Younger grades: safe, unsafe, confusing touch
- Older grades: sexting, healthy relationships, dating violence
- Teaches students to recognize abuse, respond to it & report to a trusted adult
• aims to ensure that children who are exposed to crime, violence, or abuse receive appropriate interventions so they can succeed in school to the best of their ability

• limits additional trauma to children

• HWC trainings for communities using funds from the Children’s Justice Act grant
When law enforcement encounters a child at the scene of an incident, they identify the child and send a notice to their school that they were involved in a police incident the night before and may have academic or behavioral problems that day. The notice includes no details about the incident, and contains only the child’s name and three words: **Handle with Care**.

School receives the notice before the start of the school day, so that staff are prepared to **“handle the child with care”** and respond in a trauma-informed way.
