Category	Local Tax Roll	2015 WTD	2015 PTAD Value	2015 Value
	Value	Mean Ratio	Estimate	Assigned
Total Taxable Value	3,112,386,492		3,112,386,492	3,112,386,492 T2

The taxable values shown here will not match the values reported by your appraisal district

See the ISD DEDUCTION Report for a breakdown of deduction values

Government code subsections 403.302 (J) AND (K) require the Comptroller to certify alternative measures of school district wealth. These measures are reported for taxable values for maintenance and operation (M&O) tax purposes and for interest and sinking fund (I&S) tax purposes. For districts that have not entered into value limitation agreements, T1 through T4 will be the same as T7 through T10.

Value Taxable For M&O Purposes

T1	T 2		T3	T4
3,195,989,502	3,112,386,492		3,195,989,502	3,112,386,492
the A \$10,000	oss To dditional Homestead emption	0	to the L Percenta	of the loss ocal Optional age Homestead cemption

Tl = School district taxable value for M&O purposes before the loss to the additional \$10,000 homestead exemption

T2 = School district taxable value for M&O purposes after the loss to the additional \$10,000 homestead exemption and the tax ceiling reduction

T3 = T1 minus 50% of the loss to the local optional percentage homestead exemption

T4 = T2 minus 50% of the loss to the local optional percentage homestead exemption

Value Taxable For I&S Purposes

T 7	Т8	Т9	T10
3,195,989,502	3,112,386,492	3,195,989,502	3,112,386,492

T7 = School district taxable value for I&S purposes before the loss to the additional \$10,000 homestead exemption

T8 = School district taxable value for I&S purposes after the loss to the additional \$10,000 homestead exemption and the tax ceiling reduction

T9 = T7 minus 50% of the loss to the local optional percentage homestead exemption

T10 = T8 minus 50% of the loss to the local optional percentage homestead exemption

House Appropriations Subcommittee and House Public Education Committee Hearings 85th Legislature – Regular Session

March 8, 2017

House Appropriations Subcommittee on Article III

The House Appropriations Subcommittee on Article III (Public and Higher Education) met Tuesday at 7:30 am to discuss public education funding and areas of the budget that could be cut to bring the House budget within the available revenue estimated by the Comptroller. The subcommittee was briefed on the general revenue funded public education spending in the House budget by Legislative Budget Board staff, and was told that 98.8% of public education general revenue spending (excluding TRS) is in the Foundation School Program and the Instructional Materials Allotment. GR spending on programs outside those two areas amounts to only about \$1 billion for the biennium, including agency administration, school lunch matching, and various grant programs. The subcommittee discussed outsourcing and other strategies that might reduce costs, including changes in the textbook proclamations that might reduce IMA needs, and payment delays as a savings strategy. They also were briefed on a 10% reduction level as included in TEA's legislative request. No decisions were made on reductions by the subcommittee.

House Public Education Committee School Finance Bill Hearing

On Tuesday at noon, the House Public Education Committee met for the third time this session. The committee heard eight bills yesterday and left all of them pending for further discussion and a vote next week. The bills heard during the meeting included: HB 21 (Huberty's school finance bill); HB 186 (Bernal's bill asking for a study of certain weights); HB 223 (use of comp. ed. funding by Howard); HB 395 (CTE and Tech App bill by Bell); HB 587 (CTE and Tech App bill by Bohac); HB 811 (King's ASATR bill); HB 883 (King's CTE funding bill) and HB 1245 (CTE bill by Cortez).

Released just the day before, HB 21 received the most attention and discussion—the overwhelming majority of those who testified regarding HB 21 supported the bill. The collection of CTE and Tech App bills also enjoyed support from the communities which provide (and wish to expand) these programs. Notably, HB 811 attracted the testimony and garnered the favor of over a dozen superintendents of districts which rely on ASATR dollars.

HB 223 Howard et al.

The committee began the public hearing with HB 223. This bill would allow districts more flexibility in using their comp. ed. dollars to benefit pregnant students or students who are parents (students that are identified as high risk students, although not specifically given such a label in statute). Prior to the 2011 budget cuts, such expenses were provided for or permitted. The same bill has made it out of committee twice in previous legislative sessions. There is no fiscal note for this bill as it requires no additional funding.

HB 1245 Cortez et al.

The second bill heard during the meeting was HB 1245 that would allow CTE funding to apply to 8th grade CTE courses. The fiscal note on the bill states that an expansion of such funding would cost \$39.7 in FY2018 and \$50.6 million in FY2019. Individuals from Bastrop ISD, the Texas Association of Builders, Round Rock ISD, TIVA Career and Technical Education Foundation, Banquete CISD, Career and Technology Association of Texas, San Antonio ISD, San Antonio Hispanic Chamber of Commerce, and Vocational Agriculture Texas Association of Texas (VATAT) all testified in support of the bill. Many cited the need to help 8th graders explore education pathways to help them complete their high school endorsement as a reason to back the bill. Others discussed CTE's ability to keep kids in school and focused on career aspirations.

HB 395 Bell et al.

Next, Representative Bell laid out HB 395—a bill that would include technology applications as part of CTE, qualifying them for adjusted basic allotment funding. He introduced the bill with a committee substitute that delays the implementation required of TEA. It is unclear what the fiscal impact would be (no fiscal note has been prepared for the committee substitute); the bill as filed had a fiscal note of \$21 million in FY 2018 and \$23.7 million in FY2019. The Texas Computer Educator Association, Humble ISD, Career and Technical Education Partnership, Tyler ISD, Round Rock ISD, Career and Technology Association of Texas, TechNet, and Banquete CISD all testified in support of this bill for the same reasons that individuals supported HB 1245.

HB 186 Bernal et al.

This bill would commission the legislature to do a study of the weights for economically disadvantaged students and students of limited English proficiency. No fiscal implication is anticipated for such a study. All who testified encouraged the legislature to pass the bill because they believed that these funding weights were too low and needed to be updated to reflect the true cost of educating these students, by taking into account student risk factors besides the Free and Reduced Price Lunch status. According to Celina Moreno of the Mexican American Legal Defense and Educational Fund, of the 16 states with these funding weights, Texas's is the lowest. Individuals from MALDEF, Texas National Association for the Advancement of Colored People, South Texas Association of Schools, San Antonio ISD, Association of Texas Professional Educators, Center for Public Policy Priorities, Texas Latino Education Coalition, the student body of the University of Texas and Northeast ISD all testified in support of the bill.

HB 587 Bohac et al.

This bill would produce a similar effect as HB 395, which would allow tech. app. courses to receive CTE funding. Individuals from Round Rock ISD and TechNet testified in support of this bill, agreeing with Representative Bohac that "whatever vehicle," either HB 587 or HB 395, that the committee would prefer to use to pass this legislation would be okay. The fiscal note for this bill is identical to the HB 395 as it was originally filed.

HB 883 King et al.

Unlike HB 395 and HB 587, this bill would increase the weight of CTE courses from 1.35 to 1.60. The fiscal note is hefty--\$463.5 million in FY2018 and \$486.7 million in FY2019. The Texas Association of Builders, TIVA Career and Technical Education Foundation, and VATAT all supported the bill, echoing their testimonies from HB 1245.

HB 21 Huberty et al.

For approximately three hours the committee discussed and heard testimony regarding HB 21. Chairman Huberty laid out the bill. He explained that the bill would put \$1.6 billion new dollars into public education, reduce the state's reliance on recapture, provide the state's funding system greater equity and make a first stab at overhauling the funding system—actions that satisfy the contingencies the House set out as necessary for appropriating the additional public education dollars included in the House's budget. The bill would eliminate certain funding allotments like the 1992-93 hold harmless provision, the transportation allotment, the high school allotment, and a staff salary allotment (among others) and put the dollars normally distributed through these allotments into the basic allotment. Because of the bill, the basic allotment would increase from \$5,140 to \$5,350. The bill would also create a Hardship Grant for districts subject to revenue losses and a weight for students diagnosed with dyslexia and other related disorders. Districts that currently receive ASATR would receive first priority in the grant process, and the districts that lose funding because of HB 21 would be next in line.

Chairman Huberty promised to work with the committee and any districts that disagreed with the bill to make sure that it would work for everyone. He claimed that revisions would be made and that a committee substitute would likely be ready next week before putting the bill to a vote. Representatives from the LBB and TEA helped discuss the finer points of how the bill would operate. Von Byer from TEA recommended that Chairman Huberty tighten up the language concerning the Hardship Grants so that it is clear how the priority system would work. Right now, the "fuzzy language" makes it unclear whether all districts claiming a hardship would be entitled to funding or only those the bill indicates have priority. (The bill has a cap of \$100 million of hardship grant funding.)

Those who testified were mostly in favor of the bill. Those who supported it discussed how the bill was a good first step in funding reform, reduced recapture, and put more funding in the basic allotment (as quite a few parties had requested). Several groups were neutral on the bill (mostly in favor but had recommendations), and one Plano taxpayer and Conroe ISD were against the bill (because of the bill's lack of clarity and transportation funding). Those who testified in favor included parents from AISD, representatives from the Houston Hispanic Chamber of Commerce, HISD, Texas Charter School Association, the PTA, Texas Association of Rural Schools, Texas City ISD, Lovejoy ISD, Texas Association

of School Administrators, the Texas School Coalition, AISD, Texas School Alliance, and Moak Casey and Associates.

HB 811 King et al.

This bill would extend ASATR until 2021. Over a dozen superintendents from districts that receive ASATR funding testified in support of the bill, and several representatives of policy organizations testified against it. The superintendents that testified oversee districts for which 17% to over 50% of their overall funding comes from ASATR appropriations. Some of these superintendents told the committee that they would likely have to shut down their districts if they did not receive ASATR funding beyond this year. They asked the committee to allow ASATR to continue until its natural expiration—when all districts would roll over to formula funding due to property value increases and enrollment growth. Those that testified against the bill (CPPP, TLEC, the Equity Center, and MALDEF) argued that an extension of ASATR funding would only further funding formula inefficiencies that have a negative impact on the funding of every district in the state, particularly those that educate underserved populations like bilingual students.

The hearing ended at 5:49 PM. Chairman Huberty promised to continue discussions and begin votes next week; other bills related to school finance not heard during the day's meeting would be heard in subsequent weeks' meetings.
